When the national birthday ushered in our community the horrors of Bridge No. 7, there was a universal demand for some system of public inspection whereby these murderous, mis-called accidents m'ght be presented. But this New York "accident," with its three hundred of victims, proves that such a system, long established, may lapse by negligence. The fatal boiler had passed inspection, and was provided with a self-acting safety-valve, under a sealed lock that could not be tampered with. SOUTH CAROLINA.

The Radical Report Riddled Untrue in Many Essential Par

Negro Witnesses at Two Dollars a Day.

Outrages of the Negro Ku-Klux.

WASHINGTON, August 1 .- Judge Van Trump, of the Ku-Klux sub Committee authoriz s the statement that the recently published report of the results of the committee's investigations in South Caro ins, is untrue in many essential particu-lars, and a perversion of facts in others, evidently colored for the purpose of pro-curing partisan and false impressions. The testimony shows that there are are four counties, Laurens, Chester, York and Spartansburg, where acts of violence were committed.

Parrot Witnesses at \$2 per Diem. The testimony given by the negroes was of the lowest kind and utterly un-worthy of belief. They were attracted by a fee of two dollars per diem, and in many cases were evidently drilled for the occasion. At Spartanburg numbers of them were congregated in the Postoffice while waiting to be called as witnesses, and doubtless learned the lesson which was afterwards rehearsed substantially in the same words.

A Refugee with a Fat Salary. Of the various negroes who pretended have been punished, but one was ripped, and one white man at Columbia, who, while claiming to be a refugee on account of terror, was holding office there at the expense of the State. His fictitious wounds had been healed with

The Biack Fiends of Chester. In the Radical statement it is broadly alleged that ten negroes were taken from ail in Chester and murdered by an armed band, but the facts connected with this transaction are all intentionally suppressed for effect. They were as tollows: A company of some twenty-five armen negroes appeared in that neigh-borhood, and presently announced an inention to shoot the first white man they should meet. Soon after, a drayman named Stevans, with one arm, who was universally regarded as a worthy and amiable man, was driving along the road with a barrel of whisky in his cart. II : was stopped by this band of ruffians and whisky was demanded. He told them it was not his property, but gave them a flask of his own and started again.

After going a short distance the negroes fired at his cart and hit it in several places. Postmaster General, were present. He was followed by the wretches, and against the efforts of the negro woman, whose hamble shelter he had sought and his own, he was taken out. After drawing lots five of the gang took him into the woods and riddled his body with

> The perpetrators of this outrage were arrested and put in Chester jail, but before being secured they killed Deputy Sheriff Smith who served the process. Suddenly a negro came from Columbia with what purported to be a writ of habeas corpus om the Radical Judge Thomas at Columbia, but was attested in no proper form. The Sheriff called into counsel the leading lawyers in order to determine the course to pursue in regard to this in formal and irregular requisition which bore no evidence of genuineness and came in an envelope of a daily express ompany.

In the meantime, the news spread, and vigilance committee, roused into and knowing Gov. Scott had pardoned worst criminals by hundreds, and believing it a trick to carry off the murderers, determined to administer stern justice themselves, by making an example, to check outlawry. They took the prisoners out of jail by force and executed them summarily. One of the number was released by the

leclaration of a white man that he was elieved to be innocent. While this act of vengeance is deprecated, the extraordinary provocation of alarm created by the armed blacks, as well as their violence, must be considered. As an act of violence, on the statements, it might be exposed with qual effect at the bar. This illustration sufficient for the present purpose.

Probably fifty more remain scattered about in private houses in this city and Brooklyn.

On the Battery-Watching the Bred-

Up to a late hour last evening, the Bat-tery grounds and all the neighboring: streets were thronged with men, women and children. The arrival of the Staten Island boat (a sister boat of the Westfield) was watched with interest. She was loaded with passengers who eagerly crowded to the side of the boat to catch a glimpse of the scene of the late catastrophe. Boats crossing to Hamilton ferry, were also crowded; the sad faces of the passengers plainly evinced the anxiety of all. Some friends of those who have not yet been found congregated on the whart, anxiously watching the dredgers, until a gun from Bedloes Island had just sounded across the water, when several boatmen congregated around one end of the pier, and eyes were strained, all anxiously watching men in boats steadily putting at roper, which after all proved to be caught in a mass of old rope. As darkness set in the crowd gradually diminished, and the divers ceased to make their journeys, but the dredgers

At this investigation Coroner Keenan will make a most searching inquiry into the cause of the explosion. Expert machinists will be examined regarding the condition of the boiler and probable cause of its explosion. The engineer of the Westfield will also be examined at length, and no effort will be spared to place the responsibility of the disaster to where it really belongs.

worked up to a late hour.

Later-Seventy-nine Killed. names of seventy-one killed by the explosion, and says that there are eight bodies unknown. The Herald gives the number of killed even greater. The names of one hundred and twenty-seven injured are also published. A majority or the killed and wounded are from this city, Brocklyn, and Staten Island. It is believed many more bodies will be taken out of the water, and of course others will never be found.

The most painful after-feature of the tragedy was the appearance of hundreds of anxious and half crazed people at hospitals and station houses, inquiring after missing friends and relatives. One poor fellow, Michael Finlay, who lost his wife and child by the explosion, has gone mad and attempted to commit suicide by throwing himself into the East River. Inspectors Matthews and Boale will commence examination to-day at their office, Twenty-three Pine street, by order of the Secretary of the Treasury.

Capt. Belknap, as Supervising Inspector General of s'eambosts, received a telegram from Secretary Boutwell, directing him to make a most searching investigation into the cause of the explosion and report the result of his investigations to him. Still Later-Ninety-seven Bodies Recovered !- Over Two Hundred In-

A terrible conviction is settling upon the populace that the holocaust is yet more awful than has even been suspected. Several bodies have been taken out of the water this morning, making ninetyseven total already recovered. It is now said by those best informed, the number injured will exceed two hundred.

Cause of the Massacre - The En gineer Evidently at Fault. The Secretary of the Staten Island Ferry Company stated yesterday, that it was yet impossible to account for the accident. The Inspector of the company has rigidly cross-examined the engineer and firemen and captain and pilot and he cannot attach the slightest blame to any of these officers. This statement, however, may be taken for what it is worth. As regards the engineer's allowance of steam pressure according to Government cartificate, twenty five pounds to a square inch would prevent accidents. The Government compels the use of what is termed a locked safety valve, which is only accessible to Government Inspectors. At a pressure of twenty-seven pounds to the quare inch danger is supposed to begin, and the valve automatically opens.

The engineer admits that the steam had ust begun to escape through this valve at the time of the explosion, thus incidentally admitting the fact that he did not previously know the amount of pressere of steam, and that he had neglected his engine. Had the boiler been a sound one, it would doubtless have resisted the pressure till the safety valve relieved it, but the boiler was a patched one, and that close to a weak spot-the main hole through which the engineers enter the boiler to clean it out. That the boiler was unsound at the break there can be little doubt, for itwas on the representations to that effect of several gentlemen made at the barge office, with reference to a piece that was blown on to the dock, that made inspector Jamison seize the piece and carry it off to police headquarters.

Testimony of an Expert. Chas, F. Powers, Brooklyn Boiler Inspector, yesterday examined the boiler of he Westfield, and says:

The explosion, in my opinion, occurred from over pressure of steam, as there is no appearance of low water, but on the contrary, there is every evidence of there having been plenty of water in the boiler. NEW YORK, August 1.-Dragging for bodies at the scene of the explosion was resumed at day break, but up to this time only three additional ones have been found. The excitement at the scene of the disaster was intense, the crowd was as great as yesterday. Only two victims of the late boiler explosion remain at Center street hospital. Policeman Buckley and a girl seven years of age, the latter identified this morning as the child of Jewish parents, named Leiderhoff, 151 Thompson street. COLUMBUS, O., Aug. 1 .- Some three or four years ago, Peter Bufflaburger, an old and respected citizen of London, Ohio, died under circumstances that led many of his friends to believe that he had been slowly poisoned by his wife, Angeling to whom he had been but shortly married. Buffinburger was very wealthy, and it is supposed that her object was to obtain possession of the property and share it with a man named Colburn, with whom she was on terms of improper intimacy. The matter was allowed to rest until recently, when the body was exhumed, and the stomach, which was found in a good state of preservation, was submitted to chemical analysis. The presence of arsenic was discovered, and on Saturday last a warrant was issued for the arrest of Angelina, who in the mean-time had married Colburn. It is reported that she has been arrested, and will be brought to Ohio for trial for murder. Emancipation Anniversary—A Seri-ous Disturbance. CINCINNATI, Aug. 1.-There was large celebration of the anniversary the emancipation of the slaves in the West Indies, with a ratification of the fifteenth amendment, at New Richmond, Ohio, today. About 8,000 colored people, with a colored battalion, went up on steamers from this city. Fully 7,000 persons were present at New Richmond, a large number being there from adjacent towns and villages. Speeches were made by Gen. Noyes, the Republican candidate Governor; Col. L. H. Come to See His Old Master. Marshal Bazaine is in London. The Ominous Mob of Trafalgar

It appears that the most extreme precautions were taken by the Government against vesterday's demonstrations in Trafalgar Square of the opponents of the annuity to Prince Arthur. Lurge bodies of troops were held in readiness to meet any disturbance of the peace, but happily the police were able to control the disor derly element and the services of the military were not required.

The bill providing for the annuity of fifteen thousand pounds per annum to Prince Arthur having passed both houses of Parliment has to-day received the as sent of the Queen.
An Alabama Commissioner. The Aldermen met at the Guild Hall to-

day and unanimously acquiesced in the request made by the home secretary that they would grant Recorder Gurney six months' leave of absence. The Deputy Recorder is appointed to serve as Re corder for that period. The Board, in taking this action, paid a hearty compli ment to Gurney for the great ability with which he has discharged the duties of his

Fire.

30,000 People without Shelter HALIFAX, Aug. 1 .- The royal mail steamer Delta, from Bermuda, arrived last evening, bringing intelligence of a fire at Point a Petri, Guadaloupe, on the 18th ult. Nearly the whole town was de-stroyed, and 30,000 persons were left without shelter. The only buildings that escaped were the church, theater, tribunal buildings and the hospital. Many wharves were burned and the sugar ready for shipping was destroyed. The fire commence in the middle of the town, and the wind being very high, the flames spread in all directions. The town was rebuilt en tirely of wood after its destruction by an earthquake in 1808. The fire is supposed to have been the work of an incendiary.

Foster and Nash will at once proceed with the work assigned them, beginning to day work on the culverts at the other end of the line. This portion of the work will be under the immediate supervision of Mr. James Haslam, an experienced stone meson, who will promptly and properly do his work. Other branches of the construction of this West End Avenue will be commenced within the next few days. This new improvement will no doubt greatly enhance the value of property along that portion of the thoroughfare to be widened and supplied with street railroad facilities, and the gentlemen interested in the enterprise have occasion to be grateful for the liberality evinced by most

of such owners in granting the right of way to this West Ead avenue or Broad street extension. National Commercial Convention The Commercial Convention which met at Cincinnati last fall determined the next meeting should be held at Baltimore, on the 25th of September, 1871. By resolu-
